REMARKS

No claims have been cancelled by this Amendment. No claims have been added by this Amendment. Claims 4, 5, 10-12 and 17-21 are pending in this application.

Examiner has objected to claims 10, 20, 21 as having informalities—comma (,) and a bar(-) after the "first" should be deleted. Correction has been made. The comma and bar in claims 20 and 21 are deleted per this amendment. The bar in claim 10 was indication that the comma should be deleted in the previous amendment. Applicants have reproduced claim as the Amendments to claim 10 were affective with previous amendment. Applicants have discover an additional occurrence of a comma (,) in claim 10 has deleted. Applicants are using brackets [] instead of strikethrough (-) to indicate deletion and avoid confusion of striking through a comma.

Claims 4, , 10-12, 17-21 are rejected on the grounds of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 and 8 of US Patent Number 6,771,981 in view of Heinonen et al. (6,078,806). Present application, US Patent 6,771,981 and US Patent 6,078,806 are all owned by the same assignee. A terminal disclaimer and fee is herein filed to overcome this rejection.

Applicants submits that claims 4, 5, 10-12 and 17-21 are now in condition for allowance. Applicants respectfully request reconsideration of the present application and issuance of a Notice of Allowance. In the event that any additional issues arise, however, Applicants request that the Examiner contact Applicants' undersigned attorney to expedite the examination of the present application.
